## EXAMINER'S AMENDMENT

### *Election/Restrictions*

1. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5, 9-92, directed to the species of non-elected invention no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claim 4, remains withdrawn from consideration since the claim non-elected invention.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claim 4, non-elected without traverse. Accordingly, claim 4 has been cancelled.

The application has been amended as follows: Cancel claim 4.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 recites inter alia, *ground conductor thickness of a coupling portion is at least twice a skin depth of current flowing due to a skin effect.*

Art Unit: 2832
